

How to use What-If

The What-if function allows you to run a new scenario changing your degree type, major, concentration, minor and/or catalog (bulletin) year using your existing coursework.

1. On the left side of the screen, click the “what-if” button.

2. There are many criteria you can choose for your scenario. First you'll select your degree type, like Bachelor of Arts, Bachelor of Fine Arts, Masters of Science, etc. You will also need to pick a catalog (bulletin) year in the box right beneath it. For undergraduate degrees, this catalog year will be used for your General Education (Pathways) requirements.

10. Your scenario will display as a worksheet applying coursework where applicable. If you like the programs and catalog year that was selected, you must officially change it by logging into the BC WebCentral tool to select the declaration of major and/or change of bulletin request forms. Once it is entered on your record in CUNYfirst by the Registrar’s office, it can take up to three (3) business days for it to appear on your DegreeWorks account.
